# Memorandum

**Date:** July 3, 2012

**To:** Honorable Chairman Joe A. Martinez  
and Members, Board of County Commissioners

**From:** Carlos A. Gimenez  
Mayor 

**Subject:** Proposed Zoning Ordinance Establishing Sections 33-337.1 and 33-337.2 of the Miami-Dade County Code Pertaining to Uses Permitted on Lands Designated as Government Property (GP) within Miami International Airport

---

## **Recommendation**

It is recommended that the Board of County Commissioners (Board) adopt the attached zoning ordinance establishing Sections 33-337.1 and 33-337.2 of the Miami-Dade County Code (Code) pertaining to uses permitted on lands designated Government Property (GP) within Miami International Airport.

## **Scope**

Miami International Airport is located in District 6, Commissioner Rebeca Sosa, and District 12, Commissioner Jose "Pepe" Diaz.

## **Fiscal Impact/Funding Source**

The proposed ordinance is anticipated to have a positive fiscal impact to the Miami-Dade Aviation Department in that it will facilitate private, third party development within the boundaries of Miami International Airport. The projected revenue for the Miami-Dade Aviation Department is a combination of the annual fair market value of land rents currently estimated at \$2,885,403 per year plus additional revenue based upon a negotiated percentage of the gross revenue. The negotiated percentage of the gross revenue is expected to be in the 3% range.

## **Track Record/Monitor**

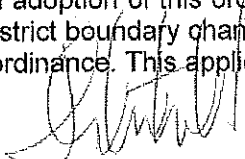

Not applicable.

## **Background**

The purpose of this ordinance is to establish a regulatory framework for the non-aviation uses permitted at Miami International Airport in compliance with the County's Comprehensive Development Master Plan. Specifically, this ordinance establishes Section 33-337.1 providing for uses permitted on lands designated Government Properties within Miami International Airport. Non-aviation uses include uses such as hotels/motels, offices, retail and industrial facilities that are compatible with the airport and located in a portion of the airport where general public access is not restricted. This is the area where third-party (commercial) development is allowed.

The proposed ordinance will allow the Miami-Dade Aviation Department to maximize commercial development opportunities in order to generate crucial revenue needed for the Capital Improvements Program debt service through third-party leaseholds by permitting reasonable and flexible non-aviation development which is compatible with the airport operations and consistent with applicable law and the Comprehensive Development Master Plan. In addition, the proposed Section 33-337.2 contains the site plan criteria to be used in the review of this development.

Upon adoption of this ordinance, the Miami-Dade Aviation Department would file an application for district boundary change (rezoning) of the lands designated as Government Properties under this ordinance. This application will be submitted for consideration by the Board at a future date.
